About SHINING

Shining Aluminum Packaging Co., Ltd. is one of the China leading manufacturer of aluminum bottle, aluminum jar, aluminum tube, and other unique aluminum packaging for global consumers in food & beverage, cosmetic, pharmaceutical, household and car care industry.

Our bottles are made from pure aluminum which is 100% recyclable, making our bottles eco-friendly. The one-piece aluminum construction and customized shape of our bottles and canisters, offer a feeling of originality and exclusivity. Aluminum containers are virtually unbreakable and for all-purpose usage, available in capacity ranging from 10ml to 5,000ml, even larger if required.

The epoxy resin inner coating makes them corrosion-resistant and non-toxic, and have already passed all tests according to Standard of LFGB and FDA. Our facilities are equipped with high quality machineries from Mall+Herlan, and Hinterkopf. Quality uncompromised was our principle.

Shining Aluminum Packaging Co., Ltd. provides innovative and customized solutions to enhance the value of your brand.

SHINING in Figures

1. NO. 1 aluminum package company in china
2. 7 years aluminum package design experience
3. Up to 9 spot colors printing facility
4. 15 full automatic production lines for us
5. Exported to more than 50 countries
6. Daily output of 120 thousands per line

Why Choose Us

OPM/OEM/ODM
Holding over 15 years of experience in aluminum packaging. We can do OEM/ODM/OPM service better.

Consultation Pack
We are able to adapt to any request by offering you three aluminum packaging solutions, including quick pack, adapted pack, personalised pack.

R&D
We have professional R&D staffs and an industrial design team. Our R&D team develops about 8 kinds of high-quality products every month.

Automatic Line
Our facilities are equipped with high quality machineries from Muller-Herlan and Hinterkoof from Germany.

QA & QC
100% passing rate is guaranteed, including IQC, IPQC, FQC, OQC. All our aluminum packaging are FDA, LFGB, Certified.

Filling Service
One-step solution. We offer filling service for cosmetic, food & beverage, pharmaceutical, and additive customers if necessary.

Process
An artistic journey of aluminum slug

Impact Extrusion Press
An aluminum slug several millimeters thick flows during this process by backward extrusion between die and punch. This is way thin walled aluminum cylinders are produced. Production speed up to 200 cans/minute.

Internal Lacquering Machine
Available for a wide variety of lacquer applications, including food, beverage, cosmetic, household and industrial purpose. Machines have 9 spray guns and applying 3 times spraying each cylinder during productions.

Offset Printing Machine
With servo-motor driven ink rollers, all printing unit functions are individually controlled on the touch panel. 9 colors offset printing could be easily applied on all aluminum cylinders.

Necking Machine
42 Station necking technology with embossing process create almost all kind of shape required.
The epoxy resin inner coating from PPG and Valspar makes them corrosion resistant, non-toxic and BPA free. All products already passed LFGB, FDA standard food safety testing.
Finished type
COLORFUL ALUMINUM CONTAINERS & BOTTLES

Attractive, Colorful Aluminum Bottles & Containers:
All aluminum containers & bottles are made and finished according to customer specific request. Finishes include painting, offset printing, heat transfer, chrome plated, anodized, etc.
